

Workflow & Task Tracker

WHY THIS TOOL MATTERS?

A **Workflow & Task Tracker** helps teams and individuals stay organised, focused, and aligned while working on projects or daily responsibilities. It **organises day-to-day tasks and improves coordination**, ensuring that everyone knows what needs to be done, by whom, and by when. For young students, youth groups, and NGO teams, this tool supports clearer communication, reduces confusion, and makes it easier to see progress step by step. By listing all tasks, assigning them to team members, and tracking progress through status updates, the tool creates transparency and helps projects run smoothly from start to finish.

HOW TO USE IT? (TITLE 2)

1. List all tasks

Identify everything that needs to be done—small tasks, big tasks, deadlines, and responsibilities.

2. Assign each task

Decide who is responsible for each item. Make sure responsibilities are clear and realistic.

3. Add deadlines and priorities

Define when tasks should be completed and which ones are the most urgent.

4. Track progress with status updates

Use simple labels (e.g., *Not Started*, *In Progress*, *Completed*, *Blocked*) to show the current stage.
